

Apple Prayers

Using a laminated apple (like picture) talk about how nice it looks, whole, perfect. Ensure the worm is in place, slightly through the slit, but covered by the leaves.

Encourage the children to think about themselves, about things that they might like to say sorry for, something that may have made somebody unhappy.

Move the leaf to show the 'bad bit', the worm! Talk about how some things are not always as they seem.

Demonstrate how easy it is to remove the worm, making it whole again and we can do this by saying 'sorry'.

Invite the children to say sorry for the things they thought about and say sorry to God.
